Permittee Name: **INTERMOUNTAIN POWER AGENCY**

Inspector Number and ID: **67 ADANIELS**

Mine Name: **WILDCAT LOADOUT**

Date and Time of Action: **12/16/2013**

Certified Return Receipt Number:

Date and Time of Service:

*In accordance with the provisions of the Utah Coal Mining and Reclamation Act,
Utah Code Ann. § 40-10-1 et. seq. (Act), the above referenced Citation is:*

☒ **Modified as follows:**

"Actions Required" - (1) At least two weeks prior to any coal fine clean-up/removal work, initiate an on-site consultation with the Division to formulate a clean-up plan for the accumulated coal fine material located within the permit area (on undisturbed areas) and coal fines outside of the permit area. (2) All coal fine clean-up/removal work must be completed within 90 days of the receipt of the NOV (March 2, 2014). The Division must be notified prior to initiating any clean-up activities (minimum 24 hours). (3) Within 60 days of the receipt of the NOV (Jan. 31, 2014), the Permittee must submit to the Division a revised Appendix P for review and approval. The revision must provide an effective monitoring, prevention and maintenance/removal plan for future coal fine control both within and outside of the approved permit area.

Reason for modification:

"Actions Required" section was modified due to an extension granted at the request of the Permittee. The clean-up work could not be completed according to the original time-line due to weather and snow conditions at the site.
